Volume 01-09-01 **Q'S News- Customer Bulletin**

Dear Debra,

Capital is the mantra these days and current media has reported time after time that businesses cannot get easy access to bank financing.

There are two points to remember in this economic turmoil to **keep your capital working for you:**

- 1) Do not finance equipment on your bank Line of Credit or it will throw off your Working Capital ratios and may cost you your bank facility.***
- 2) We will provide Working Capital to your business by re-financing unencumbered assets.***

We are lending, we have access to multiple finance sources and we have the most competitive rates in the market.

Your business plans do not have to be a casualty of this market.

Leasing is a perfect solution, flexible, affordable and diversified from bank lines of credit.

Please contact me directly to discuss your personal business finance strategy.
