September 2009

Dear Debra,

At Questor, we respect that our partners are busy and we genuinely appreciate your attention to **Q's News**.

In this edition we will give you some great tips to help you get what you need without waiting, and to get those Green initiatives off the to-do list and into action.

Waiting for 2010?

With the calendar year coming to an end, many business delay equipment spending to wait for the 2010 budget.

Every week you wait to develop your business is another week of lost opportunity.

New leases now qualify for a 3 month grace period with zero payments (OAC). This allows you to get the equipment you need today, and start payments into next year. Please ask us for details on how a 3 month skip lease can help your business.

Green Smart Lease Program

Questor is very pleased to announce the launch of our new **Green Smart Lease Program**.

Leasing is a perfect financial tool to help businesses adopt ecofriendly practices with equipment upgrades or initiatives.

Take advantage of rebates offered by the government; the reduction cost savings; the important message to corporate culture, all the while addressing the environmental necessity of reducing our consumption.

Any equipment that promotes environmentally friendly practices can be included under our **Green Smart Lease Program and may qualify for discounted rates.**

We hope you enjoy the new look to **Q's News**. If you haven't had a chance, please take a moment to complete our [Customer Survey](#)--your opinions are very valuable to us.
