Questoring Minds Want to Know....

A common
phrase.

My Accountant Said I Should Lease It...

We regularly have over **20 000 clients** refer to us for Experience in equipment financing for their business.

Quite simply, most accountants recommend their clients lease for the following reasons:

- *Preserve Bank lines***
- *Put the power of capital to work in a company instead of letting it sit idle in equipment***
- *Lower upfront costs***
- *Significant tax savings.***

We are developing an excellent new calculation tool to detail all the implications

of a Lease/Loan/Buy analysis.

Be sure to ask us for help with your next equipment acquisition.

How Will Leasing Affect My Cash Flow?

How will leasing affect your company's cash flow? In a word, **positively**.

That is because leasing usually offers lower monthly payments than other financing sources.

Those lower payments can help you bring revenues and expenses into closer alignment.

Because payments are fixed, you can forecast future expenses more accurately and improve your budgeting process.
